Profile

I decided to study engineering because I have an incredible passion for finding solutions to problems.

We are in a world that every day gets on the immense ship of technology, and I want to be part of it, developing technological solutions. I'm very interested in developing on backend, although I am starting on frontend

Work Experience

12/2019 - 03/2020 MERIDA, MEXICO

Production Indicator Assistant

Vidrios Millet

Reading and management of production data of each machine.

Action plans to reduce wastes and backorders

08/2016 - PRESENT MERIDA, MEXICO
